I. INTRODUCTION

Slang has become a phenomena that is unique to the millennial generation only for city dwellers, but also for them. People reside in villages are familiar with slang language as though it were popular among millennials era. Nevertheless, parents and grownups criticized the grammar and voice of the challenging language spoken by their kids be comprehended. Additionally, social media is increasing at the moment, starting with Send Short Message Service (SMS) to Facebook, Instagram, Twitter, WhatsApp, etc. The use of social media accompanied the growth and the spread in the period of the millennial generation, not only both in its writing and in its pronunciation.

Slangs are very common and close to speakers of any language, although they are used mostly in informal communication. Zhou & Yanhong (2013) said that slang is highly informal and is often used in colloquial speech. In reality, slangs are commonly used by teenagers and in casual or daily adolescents alike communication. Slang is language (words, phrases, and usages) of an informal register that members of special groups like teenagers, musicians, or criminals favour in order to establish group identity. Slang is often used by millennial generation in daily life conversation. In this modern era, where technology rules the world, people's language develops the following technology. For example, it is the internet. On the internet, people are free to communicate

with other people with different styles and accents of language. In this online communication, especially social media, people usually use many styles or slang words to communicate with each other. Today, people cannot be separated from social media. Social media such as facebook, twitter, Instagram, etc are several kinds of social media that are popular now.

Instagram is a social media that allows someone to post a photo or video. There are many accounts on Instagram that supply a source of news or information and a source of entertainment. Instagram is an application that allows users to upload photos or videos to the service. Users can follow, like, and comment on other users to add their content to a feed. And also users can add some caption and location when users post a photo or video. A caption is a short phrase or sentence which usually explains the posting. Users may write whatever they want for the captions. Because of this, the rule of language is not obeyed and may cause a style of language.
